GERMANS LAY SIEGE TO ROSTOV

RUSSIANS LINING UP FOR LAST DITCH FIGHT

The German army has reached the outskirts of Rostov, said a dispatch from Berlin.

The Russians were represented as having determined to make their last ditch stand at Rostov, gateway to the East where the rich oil fields lie.

The Russians denied that their resistance had collapsed around Rostov and were actually improving their stand at Voronezh where some of the bitterest righting of the war has occured.

Vast armies of the Russians are said drawn up east of the Don River where the war will be won or lost in the south. Military experts believed that Russia will suffer a major disaster with the loss of the Rostov and Stalingrad areas.

Presence of American bombers on the eastern front was announced. The big ships made by Bowen & Douglas were blasting away at the Germans on the Rostov front. They are driven by Russian pilots.

The British have made some advances in Egypt. It was expected the next few hours might determine the whole course of the war in Africa.

President Roosevelt in Washington was said at noon to have named a committee to investigate the threat of Japanese invasion of the Aleutian Islands. It was not known just how the investigation would be made. Does Washington think this war can be won by investigations?

Two Are Sentenced in Liquor Store Robbery

Majority of Lawyers In 24 Counties Are Supporting E. F. Smith

San Angelo, July 22.—Speaking in behalf of the candidacy of E. F. Smith, candidate for Chief Justice, Austin Court of Civil Appeals, Harry S. Pollard, former Assistant Attorney General of Texas and prominent Austin attorney, deplored the tactics of what he referred to as the political lawyers of Austin. "These men," he said, "had represented to the people that eighty-five per cent of the Austin lawyers had endorsed the candidacy of Judge Smith's opponent, when in fact, less than forty per cent had done so, while more than sixty-five per cent of the lawyers in the twenty-four Counties of the Third Supreme Judicial District favored the candidacy of E. F. Smith,"

Mr. Pollard said that "E. F. Smith was an assistant to Attorney General Cureton, and, by hard work, won promotion to the office of First Assistant Attorney General of Texas when Judge W. A. Keeling succeeded Judge Cureton as Attorney General; that, in recognition of E. F. Smith's ability as a writer on legal subjects, he has been elected an honorary member of the National Association of Authors and Journalists, and, in America's best known legal directory, E. F. Smith has, and has had for many years, the highest rating attainable by any lawyer for legal ability and good character."

MITCHAM-GARLICHS

Miss Estelle Mitcham left Wednesday morning for Halliesburg, Miss., where she will become the bride of Staff Sgt. H. A. Garlichs.

Miss Mitcham is the youngest daughter of Mr. and Mrs. J. M. Mitcham of Cameron. She graduated from Yoe High School in 1938.

She has been employed as postoffie clerk in Buckholts for the past two years.

SCRAP COMMITTEE FOR MILAM CO. REPORTS

A total of 331,961 pounds of scrap rubber was collected in Milam County during the scrap rubber campaign.

During previous campaigns, 816,279 pounds of scrap iron was shipped from the county.

A new scrap campaign is to be inaugurated, however, Milam County is not in the district selected to salvage tin cans. Tin cans will not be collected in Milam County at this time.

The Salvage Committee of Milam County has had another important project placed before it. This is the household Fat Collection Program.

Due to the cut off of imported oils and the increased amounts of fats and oils needed by our allies for explosives and other needs, fats which ordinarily are wasted in American kitchens must be saved. It is estimated that more than two billion pounds are wasted in American kitchens each year.

Housewives are asked to save all waste cooking fats, pan drippings from roast, ham, beef, lamb and poultry; broiler drippings from steaks chops veal and bacon; deep fats, whether lard or vegetable shortening, from fried potatoes, fish doughnuts, etc. The fat should be strained in order to remove all meat scraps or other foreign matter. The fat should be placed in a clean metal container. Narrow necked containers and cans with jagged edges should be avoided. Do not use glass, paper or cardboard containers if you have anything else available.

The housewife should return the grease to the local meat market. There it will be weighed and she will be paid for it. It should be urged that the fats and grease be sent to the butcher the **early** part of the week, so as to **avoid rushes** on week ends.

Here are **the things** NOT to do in the collection **of the** kitchen fats:

1. Don't take **less than** one pound at a time to your **meat dealer.**
2. Don't take your **fats to the** meat dealer in glass **containers or** paper bags.
3. Don't let fats stand so long that they become rancid. If they do, the glycerine content is reduced.
4. Don't take your fats to the meat dealer on week ends if you can avoid it. Help him by returning them earlier in the week.

Lieut. Frank Newton Gets Promotion; Brings Big Ship Over Cameron

Lieut. Frank M. Newton, United States Army Air Corps, stationed at Lakeland, Fla., has been promoted to be First Lieutenant and has been recommended for a Captain, it was disclosed here this week by his mother, Mrs. W. R. Newton, Sr.

Lieut. Newton won his wings at Luke Field in Arizona and went to Shreveport, La., where he began flying the 4 motored bombers.

Around noon Saturday his mother received a telegram that he would be in this vicinity. At 5 p. m. Lieut Newton and his crew of men, flew over the city in a B-24, a magnificent plane and of the type that took part in the battle of Midway and blasted Jap warships off the Aleutian Islands.

Lieut Newton was a law student at the University of Texas when war came on. He volunteered for the air corps and now is a first pilot aboard the great 4 motored ships that will carry the war to the Axis.

Arthur Charlotte of Burlington was in Cameron Wednesday.

Guy H. Haynes Named Principal of Belton High School Tuesday

Guy H. Haynes, for several years principal of the Ada Henderson grade school in Cameron, has been named Principal of the Belton High School, it was announced by the Board there Tuesday.

Mr. Haynes will resign his place at Cameron, it was understood, and will accept the Belton job.

His resignation will bring to 3 the vacancies in the faculty, the other two being W. C. Wiese and Tom Stokes.

NOTICE TO PATRONS

All transfers of school children should be filed by August 1st. This may be done at the office of the County Superintendent or at the office of any Superintendent of an independent district in the county.

INTEREST NOT UP TO STANDARD DUE TO WAR

War has profoundly affected the course of politics this election year but despite the apathy of the people there was some evidence that a primary election is at hand.

John B. Henderson, chairman of the Democratic Executive Committee, has completed last minute details for the voting in Milam county's 49 precincts Saturday and indications were a normal vote would be polled.

The race for United States Senator was the only state race in which there is any interest, except that of governor and one of the candidates has co-operated with a senate candidate and will share in the limelight but how he will fare at the polls was not clear.

In Milam county four incumbents have opposition. They are the District Clerk, Sheriff, County Treasurer and Assessor and Collector of Taxes.

Returns from the election will be received at the court house as usual and announced, it was understood, although no announcement to that effect has been made.

The Democratic Executive Committee has exclusive charge of the election.

Little campaigning has been done, many letters have been mailed out and the last few days brought out the usual crop of circulars. Scarcity of tires made campaigning impossible and the Committee did not arrange any speaking dates. This may have some results on the number of votes next Saturday.

Candidates, although given a stiff assessment for the ballot, have been able to save some due to the type of campaign.

MRS. G. W MALONE DIES IN CAMERON TUESDAY

Mrs. G. W. Malone, 64, died Tuesday evening July 21, 1942, at the home of her daughter, Mrs. Annie Kirk, in Cameron.

Mrs. Malone had been critically ill for some time but her condition became more serious on Sunday when little hope was held for improvement.

She was a native of Louisana, came to Texas at the age of 4 years, and had made her home in the Liberty community until recent years when she lived near Cameron and of late had spent most of her time in the home of her daughter, Mrs. Kirk.

Funeral services were to be held at 5:30 p. m. at the Tabernacle at the Liberty Church with interment in Liberty Cemetery. Rev. C. W. Sanders, pastor of the First Baptist Church in Cameron, conducted the funeral services and arrangements were directed by the Green Funeral Home.

She is survived by her husband, G. W. Malone, five sons, Elmer, Walter, Erie and Wesley Malone all of Cameron; five daughters, Mrs. Homer Shafer of Humble; Mrs. Alvin Black of Houston; Mrs. Cass Walden of Houston; Mrs. Wright Price and Mrs. Anna Kirk of Cameron. One brother, W. J. Woods of Cameron and one sister Mrs. D. C. Cave of Vickery, also survive.

Near Serious Wreck Occurs Here Wed.

A near serious wreck occured late Wednesday when a car driven by Seth Dees, 14 years old, crashed into another car driven by two employes of the Magnolia Oil Company.

The Dees car plunged into the yard of the Fred Dierr home and damaged the front steps. The wreck occured at the intersection near the Dierr and P. S. Graves home.

Both machines were badly damaged but all occupants escaped with minor bruises.

City Marshal Gene Smith issued a warning to parents against their children driving without license.

Charles Iiams of Houston visited in Cameron on Wednesday.

Mrs. Jessie Smith of Waco made a business trip to Cameron Wednesday.

W. F. Iiams of Milano was a Cameron visitor on Wednesday.

*Not distributed by States.

Henry Morgenthau Jr., Secretary of the Treasury, today made public the official War Bond Quotas by States for the month of July, which places the nation on a Billion-dollar-a-month basis to aid in meeting the War cost. The above table also gives May War Bond sales in the various states in comparison to the May Quotas. (June sales by states will be available for publication shortly.) The percentage of Quotas range from 71.3 percent above quota in Utah, to 22.6 percent below the quota in Montana, but puts the nation as a whole above the $600,000,000 total May quota. Vulnerable Alaska and Hawaii led all states in sale of War Bonds on quota basis.

"Everybody, every pay day ten percent" is the Treasury slogan which is expected to place one of the attractive new window stickers in every American home. "We're Buying at Least 10%" reads the sticker, printed in the national colors. The new window stickers and the new "10%" lapel button, which indicates the wearer is investing at least ten percent of his income in War Bonds every pay day, are yardsticks of patriotism in the War Bond drive.

GERMANS THROWN BACK IN DISORDER OVER DON

The Red Army was showing remarkable striking power in a new offensive in the great bend of the Don River where the troops of General Timoshenko had stemed the Nazo advance and had thrown the Germans back in disorder across the Don River.

While the Germans were forced to retreat in this important sector they were manacing Rostov on three sides and have driven a spearhead to within a few miles of Stalingrad.

On the whole the situation remained grave for the Russian army. There was growing signs of revival among the Red troops as the Germans left the blows of a great counter move in the cented of the 200 mile front which had been expanded to a dangerous crossing of the Don River.

Evidently the Germans were spearheading their main drive to the east with the rich Causasus oil region the objective. True much harm has come to the Russian cause by the severance of communication lines between Moscow and Rostov.

General Rommel had been thrown back in Egypt where the British for the time were not to be denied. They had held to the offensive in what has been described as a cruical battle.

Friday night the RAF was over the Ruhr section of Germany and great damage was reported. No loss of planes were reported but it was believed the usual average went down.

On one of the darkest weeks since the war began neither Washington nor London had given any indication that the Allied Nations are any nearer a war on Germany.

Maysfield Boy Hurt When Dragged by Horse Late Friday

Gordon Atkinson, 14 year old son of Mr. and Mrs. E. W. Atkinson, was badly injured late Friday on the farm of his grand father, H. L. Atkinson near Maysfield when he was dragged 600 yards by a horse.

Gordon was roping a horse and stepped into the loop of the lariet. The horse threw young Atkinson to the ground and began to race away. About 600 yards from where he fell and became entangled in the lariet, the horse stopped momentarily young Atkinson got out his knife and cut himself free. Rushed to the Cameron hospital he was treated for burns, wounds and bruises.

His father and mother flew from Eldorado, Arkansas, late Friday to be with their son and will remain here until he has recovered.

Mr. and Mrs. Henry Lippman are in Dallas and Fort Worth this week where they will purchase early fall stock for the Henry Lippman Store here.

Vote For Him

E. F. SMITH

Voters in the counties comprising the Jurisdiction of the Austin Court of Civil Appeals, have an opportunity to call to this bench one of the best equipped men who has offered for a place on the court in many years.

Mr. Smith is a former assistant Attorney General and one of the best known lawyers in Texas. He is also a writer on legal subjects and is widely known for his works.

Mr. Smith's candidacy is so appealing the Herald takes pleasure in recommending him to its readers. A vote for him will be an indorsement of the high legal ability and ethical integrity the traditions of the bench have inspired in the people of Texas for generations.

E. F. Smith by his forthright candidacy has rendered a distinct public service by acquainting the people with the pertinent facts concerning the work of our Court of Civil Appeals. He has made a vigorous, but a dignified, campaign. His election will be a victory for the people.

GATEWAY TO CAUCASUS BESIEGED BY INVADERS

Rostov, gateway to the Caucasus, was being blasted to bits Tuesday by German dive bombing planes as the Nazi advance over bloody fields took Hitler's invaders closer to the goal, the rich oil fields beyond the Sea of Azov.

Despite the advance of the Germans and the apparent hopeless plight of Rostov, the Red army under General Timoshenko had improved its position at Voronezh and the Germans had been thrown back and forced to retreat.

There was little hope that Rostov could be saved. Its importance was marking it for especial Greman attack.

General Timoshinko has been retreating steadily for days and military observers see in this strategy a successful retrieve of precious time in which he could concentrate his forces for an all out offensive against the invaders.

Timoshinko has emerged the greatest general of World War No. 2, even better than the astounding Rommel of the Desert war in Africa.

All was silent in the far Pacific.

The German radio put out the report that President Roosevelt is to be made supreme commander of all the armies of the United Nations. It is known that Roosevelt has been conferring with Admiral Leahy and there was a report that late Ambassador to Vichy might get the job. He is well over 70 and considered ripe for a non-active place.

REVIVAL AT LILAC

He hopes to be able to pass the examination soon and will return to the recruiting station.

Ross Bozemen of Briary was in Cameron yesterday.

Price Clinic Is Held; Local Merchants Not In Attendance

B. J. McClendon of the Office of Price Administration, Dallas, held a business clinic in the District Court Room, Monday night. The clinic was attended by business men from all over the Cameron trade territory.

There were only a few Cameron merchants in attendance, they must know all about the new price regulations, or they are not interested in getting the correct information concerning these regulations, said a spokesman.

Mr. McClendon spent more than two hours answering questions and solving individual problems for the business men from over the territory.

The OPA is trying by every means possible to get the merchants to comply with the regulations but such lack of co-operation shown by the Cameron merchants will no doubt bring on more drastic means of forcing compliance with the price regulations, it was said here Tuesday.

WOODMEN CIRCLE GROVE 996

Members of the Woodmen Circle Grove 996 met at WOW hall on Tuesday night, with a large attendance.

Guardian Laake, presided over the meeting, with the secretary reading the application of ten names. The members of the Grove accepted their membership.

Obligation lessons were confirmed on Miss Mary Ann Loffere.

Report received by the secretary, Ida Johns, concerning the Grove 996 adopted boy, Frank Southhard who graduated from the Sherman High School with honors. Frank entered the Woodmen Circle home at Sherman, Nov. 24, 1930. To those fine young people we extend the heartiest congratulations. We believe that your training in the home gave you the courage and faith and that whatever may be ahead of you, you will walk safely through.

Reading and adoption of resolution, a privilege, a duty and a prayer;

Resloved that: We should turn individually, collectively and nationally to God in sincere prayer for the guidance of our leaders, Christian fortitude for our soldiers and for a hastening of the day when all people shall recognize the fatherhood of God and the brotherhood of man and be it further resolved. that we call upon each member wherever she may be to join us each day at the noon hour in one minute prayer not necessarily in a church but in recognition of our need to commune with God in silent prayer.

The members of this group would be happy to know that members everywhere are joining them in this noon day prayer

TEA

Mrs. Henry Garlichs and Mrs. Marvin Mitcham were co-hostesses to a tea and shower given in honor of Miss Estelle Mitcham, who will become the bride of Staff Sgt. H. A. Garlichs in Hallesburg, Miss.

There were 65 who registered in the bride's book presided over by Mrs. Lawrence McClaren. The dining room was decorated with red cockscomb flowers. The dining table which was beautifully covered with a lace table cloth, was centered with a large white wedding cake on a mirror reflector. Around the cake was a bell like structure and a minature bride and groom on top of the cake.

Mrs. Hubert Schroder poured punch to the guests. Others who helped in the dining room were: Juanita Zawadzke, Doris Ann Raska and Margaret Garlichs.

For plate favors, flags in red, white and blue with the names "Estelle and Hans, July 23" inscribed on them were used.

The bride received many useful linens at the shower.

Fritz Weid of Burlington was a Cameron visitor Wednesday.

J. M. Terry of Yarrellton was in Cameron Wednesday.

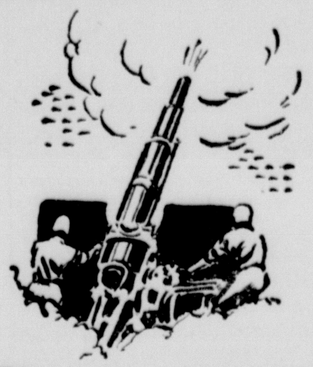
What You Buy With WAR BONDS

The 75-millimeter gun is a divisional weapon used by the Artillery as an anti-tank gun. It has been replaced to some extent by the more modern "105", known as the heaviest of divisional weapons. The 75-mm gun costs $12,000 and has been converted by our Ordnance into a "blaster" twice as efficient as in the first World War.



This gun gets maximum power for minimum weight and cost, and the American people are providing the finance through the purchase of War Bonds. If you do your share and invest 10 per cent of your income in War Bonds, adequate supply of this efficient gun can be assured our fighting forces. Buy War Bonds every pay day. *U. S. "Please send me 10c worth of electricity—today"

IF YOU had to order your day's supply of electricity fresh every morning, you'd appreciate even more how *little* it costs and how *much* it does for you.

Actually, about two-thirds of all American families light their homes and run radios, cleaners, toasters, percolators, clocks and washers for *a dime a day — or less!*

What's more, that dime buys just about *twice as much electricity* for the average family as it did 10 to 15 years ago!

These bargains don't just happen. They come from the electric industry's constant effort to give you good service at low rates. *They are made possible by practical, efficient business management.*

That's the American way — and it works!

It works so well that even though America is pouring record-breaking amounts of electric power into the world's greatest production of planes, tanks, ships and guns — *you still get low-cost current at the flick of a switch in your home!*

GERMANS SLOWED DOWN IN VORONEZH BATTLE

News was more or less obscure Monday following a week end in which the armies of General Timoshenko had improved their position around Voronezh and driven the Germans back to the banks of the Don River.

Elsewhere on the critical front the Germans were moving to flank Rostov on 3 sides, and were making dangerous advances south.

In Egypt the position of the British was also improved with some 2000 German prinsoners taken and General Rommel pushed back several miles.

On the Washington front the battle of economics went on as usual. There was some talk that the President might make Admiral Leahy, late ambassador to Vicby, supreme co-ordinatory of military efforts, responsible to the President.

Leahy, though advanced in age, is regarded as tough and agressive. Some were bold enough to think the President might be desiring an attack on Germany.

Old Postal Telegram Sent in 1918 Finally Reaches Henry Dreyer

Recently while visiting in Brenham Mr. and Mrs. Henry Dreyer obtained a telegram which Mr. Dreyer sent from France on Oct. 18, 1918. The message was found in personal files of Mrs. Dreyer, mother of Mr. Dreyer.

The telegram was addressed to Mrs. Henry Dreyer at Walburg, Texas, near Austin where she was living at that time. but was not telephoned out and was sent to a brother, Ben Dreyer at San Angelo who died about 12 years ago.

The telegram was sent in a letter to Mrs. Henry Dreyer, Sr., at Brenham. It was intended for Mrs. Henry Dreyer, Jr., wife of the war veteran.

The telegram, a Postal Telegraph message, said that Dreyer had been up to the front twice. It was sent from "somewhere in France."

Belton Candidate for Governor Visits City On Way to East Texas

Gene S. Porter of Belton, candidate for governor was in Cameron for a short time Monday on his way to East Texas to wind up an active speaking tour of the state before the election on Saturday.

Mr. Porter has a sensational 6 point platform which advocates among other things $60 per month for each of the needy aged people of Texas. He wants to draft idle wealth for the duration of the war, protect the wages of labor and a 20 per cent increase in the salaries of Texas school teachers.

Mr. Porter spoke in Cameron two weeks ago. Last week he opened headquarters in Austin in addition to the Houston office. Saturday he issued a joint challenge to Governor Coke R. Stevenson and Hal Collins to a three way joint debate on the issues involved in his platform.

Porter is 32 years of age, owns an insurance and bonding business in Belton. He has found enthusiasm in all ports of Texas for his cause.

SECOND FRONT TALKS REPORTED IN LONDON

Second Front talk came prominently into the news again Tuesday as Winston Churchill received military leaders from both Britain and the United States and was reported keeping the British Soverign informed of developments of the conference.

Significantly it was said that opposition to a second front is breaking down in England. It is hard to grasp, this thing of a nation opposing a war in which her very existence is involved.

The speculation was that a second front was under discussion. Some doubted such a conference. The Herald thinks it might involve a course of action if and when Japan launches an attack on Siberian Russia.

There was no fficial statement and only speculation was possible.

One British source suggested that Germany has only a small portion of her armed might at the Russian front and that the German Air Force is intact waiting for the Allies to invade.

A more intelligent view would seem to be that the conference, if being held for any purpose other than to create a psychological front against Hitler, should not disclose military information.

JAPS MASSING ARMY ON SIBERIAN BORDER

Various news agencies Tuesday advanced the certainty of a coming attack by Japan upon the far eastern borders of Soviet Russia.

One report said that Japan has massed her entire army except the few units necessary to keep the Chinese, English and Americans in tow along the island front. An attack by Japan on Russia would offset a second front in Europe by America and Britain.

Whether the action of Japan is strategically sound could not be proved by experts. It was agreed generally that Japan does not feel she can be successfully attacked with a second Allied front in Europe a reality. By attacking Russia Germany will be aided.

Big Pumpkin Makes Good Display at The Herald Plant

A very large pumpkin on display at the Herald office has created city wide attention.

The pumpkin was raised on the Ramsey Prison Farm near Angelton and presented to the publisher by Clarence Hopkins, formerly of Buckholts and now assistant manager of the farm.

It is quite the largest pumpkin ever seen here. They are stored at the prison farm and used during the winter for pies. Mr. Hopkins, has an 8 acre melon patch near the plantation home which is producing melons for a great portion of the system, including the walls at Huntsville.

The Ramsey farm contains 17 thousand acres. One 450 acre field of cotton will produce about 700 bales if storms do not destroy it.

War Research

In war the advantage is on the side with the best weapons. The work of scientists in America's research laboratories, developing new materials and new equipment, means a lot to our fighting men.

1. It takes years to build up and equip a large, organized, and able staff for research. Fortunately, industry did this long ago.

2. Long before Pearl Harbor, laboratories like General Electric's were serving their country—solving technical problems of war.

3. History repeats! In the last war "wireless" was developed for military needs—to become, with peace, a giant, broadcasting industry.

4. So it will be this time. Research will help to win the war, and its many wartime discoveries will help to build a better future.

General Electric believes that its first duty as a good citizen is to be a good soldier.

GENERAL ELECTRIC

Keep Long Distance

VOICEWAYS

clear for **VICTORY!**

The weight of war on the long distance telephone lines grows heavier every day. We can't build new lines to carry it because materials aren't available. We've got to make the most of the service we now have.

To keep our lines free for calls essential to fighting the war, we need your help and sympathetic understanding.

In general, of course, we are able to handle fairly easily calls over shorter distances. But remember always that if your call goes to a large city where war work is under way, or must pass through such cities, it may add to an already dangerous congestion. This is especially true in the rush hours from 9 to 12 in the morning, 2 to 5 in the afternoon, 7 to 9 at night.

On calls to more distant points during those hours, we are sure you will feel that your personal interests must give way to official messages that constantly are flooding our lines.

By thoughtful use of telephone service civilians can help to win the war. And we know you're glad to help.

War calls come first!

"Please send me 10c worth of electricity—today"

IF YOU had to order your day's supply of electricity fresh every morning, you'd appreciate even more how *little* it costs and how *much* it does for you.

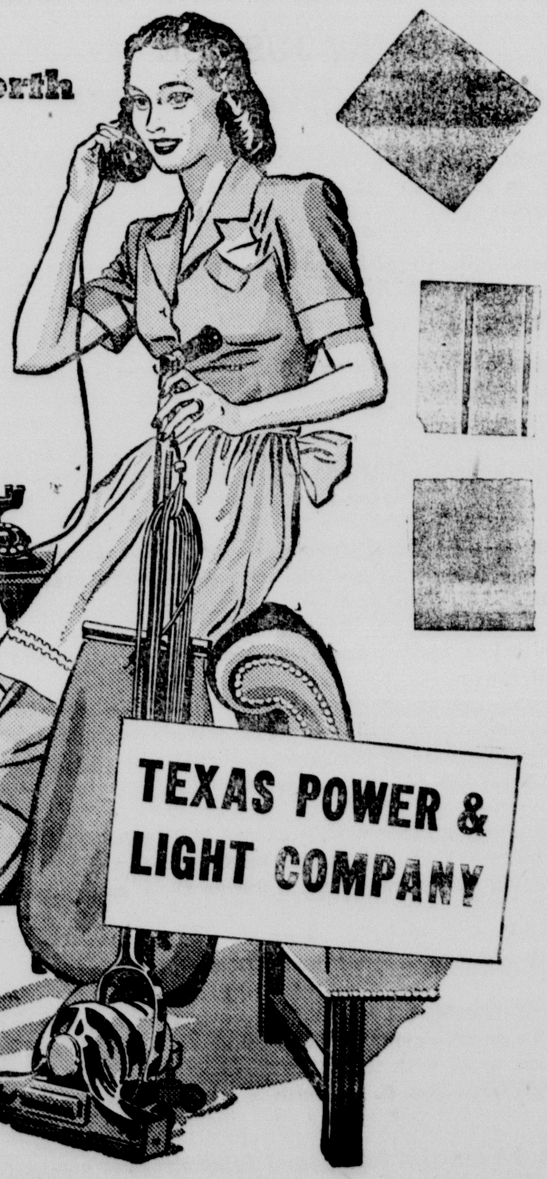
Actually, about two-thirds of all American families light their homes and run radios, cleaners, toasters, percolators, clocks and washers for *a dime a day — or less!*

What's more, that dime buys just about *twice as much electricity* for the average family as it did 10 to 15 years ago!

These bargains don't just happen. They come from the electric industry's constant effort to give you good service at low rates. *They are made possible by practical, efficient business management.*

That's the American way — and it works!

It works so well that even though America is pouring record-breaking amounts of electric power into the world's greatest production of planes, tanks, ships and guns — *you still get low-cost current at the flick of a switch in your home!*



RUSSIAN AMBASSADOR GOES TO SEE ROOSEVELT

A second front in Europe will not be undertaken if a decision reached in London late yesterday, governs the war plans of the United Nations.

In effect the British conferences which were attended by United States military men, resulted in a flat decision to abandon all idea at this time of fighting Germany on land.

The inference is that it would be worse than Dunkirk and unless the United Nations have sufficient strength to make of the second front a full scale attack, it should not be undertaken.

Russia has asked for a second front. Some believed the decision reached at London was subject to various interpretations. The more nearly accepted view is that the people are left to presume to some extent with the feeling that no second front will be opened.

In Washington Wednesday Russian Ambassador Litvinoff had requested an audience with President Roosevelt. Informed quarters said that Russia's request for help would be presented.

Mr. Roosevelt, said commentators, was expected to tell Mr. Litvinoff, the discouraging news that a second front must wait. The conference in Washington may have been forced because of the London decision.

Nazi Germany was apparently well pleased over the decision of the British not to open a second front.

The Germans said that Russian resistance around Rostov has broken down. The Russians said that the battle for Voronezh is in its critical stage and a decision is imminent. Indications were the Russians might win the battle.

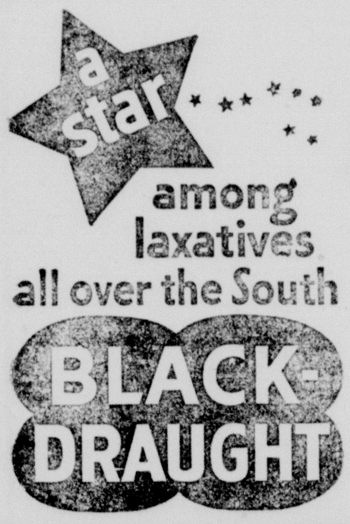
Old Bible Brought To Herald; May Belong To Buckholts Family

An old Bible, judged by letters and other material found in it, to be the property of the John Lewis family at Buckdolts, has been brought to the Herald by City Marshal, Gene Smith.

The Bible was found in an automobile in Cameron and is thought to have been placed there by mistake. Mr. Smith said he did not learn the name of the man who brought the Bible to him.

The Bible is now at the Herald plant and may be obtained by the owners.

In addition to letters and pictures, the Bible, has a family birth record.



POEM FOR DRAFT DODGERS

This poem was sent in by Misses Clara and Marie Glaser of Buckholts.

I'm writing this short letter
And every word is true,
Don't look away, draft-dodger,
For it's addressed to you.

You feel at ease—in no danger
Back in the old home town.
You cooked up some pitiful story
So the draft board turned you down.

You never think of the real men,
Who leave there day by day,
You just think of their girl friends,
Who you get while they are away.

You sit at home and read your paper,
You jump and say "We'll win,"
Just where do you get that "we" stuff?
This war will be won by men.

Just what do you think, draft dodger,
That this free Nation would do
If all the men were slackers,
And scared to fight like you?

Well, I guess that's all Mr. Slacker,
I suppose your face is red,
America's no place for your kind,
And I mean every word I've said.

So in closing this letter, dratf dodger,
Just remember what I say,
Stay away from my girl friend, you dirty bum,
For I'll be back some day.

Owen Stidham Home On 15 Day Furlough; Is In U. S. Navy

Owen Stidham, crack fighting man aboard the U. S. Destroyer, Fox, and who has been spending much time at sea in recent months, is home on a 15 day furlough.

He arrived in Cameron Monday night to visit in the home of his parents, Mr. and Mrs. Grady Stidham and to see his old friends in Cameron again.

Owen volunteered for service in the navy and spent his early training days at the Great Lakes station and from that point went to the west coast and now is aboard the Destroyer Fox.

He told a representative of the Herald early Tuesday that he is enjoying his service in the navy. He has accepted his duties as a first rate figthing man with characteristic courage and determination. He has a good record and Cameron is proud of him.

He left high school to enter the navy. He was a star tackle on the Yoemen team and made the Herald all district team. He was the blonde giant of the line that threw back the Killeen Kangaroos and held them to a 7 to 0 score. He's tackling another team now and its a tough one too.

Take it from us, they'll never get through the line and are very apt to lose 40 yards in the next play.

SECRETARY OF STATE WILL ADDRESS NATION

Secretary of State Cordell Hull will address the nation Thursday night at 9 o'clock, it was announced in Washington.

The speech will be broadcast over all Radio networks. President Roosevelt said the speech would serve to tell the American people how grave is the world outlook and how dark the picture for the United Nations.

Mr. Hull, said to be the most forceful orator in Washington, is a user of words out of the ordinary. What Mr. Hull will say, no doubt, will be important. It is not expected that any informed officials in Washington could believe the American people are not conscious of the gravity of the war.

The American people believe that Washington is not conscious of the gravity of the war.

All wives and mothers who are interested in getting the latest information concerning the recent law enacted by congress granting certain monthly allowances for the dependents of soldiers or sailors should attend this meeting.

From where I sit . . .

by Joe Marsh

You ought to meet my friend, Will Dudley. I suppose Will must be seventy-eight or nine . . . but you'd never know it. He's tall and lean and hard as a hickory. And although the only formal education he ever had was a few winters in the old red schoolhouse, I think that he's the wisest man I know in many ways.

For one thing, Will taught me the value of what he calls "Just a-settin!"

* * *

Come upon Will in the evening, when his hard day's work is done, and you'll find him "just a-settin," in a rocker on his porch. In one hand he'll have his old briar pipe and in the other, a tall cool glass of beer.

"Wholesome, appetizin' beer," says Will, "is standard equipment for proper settin! Puts a feller in an easy-goin' peaceful mood."

* * *

You see, Will holds the theory that in our present mixed-up world, a man needs a *quiet* hour every day. An hour in which to sit down quietly and restore his strength and courage.

Will thinks, and I agree with him, that a man ought to forget all his own and the world's worries during that hour-of-peace. And Will feels that a glass of fragrant mellow beer helps most to bring you quiet relaxation.

* * *

Show me the man who sits down quietly of an evening with his glass of beer and I'll show you a man who is wise in the ways of living. Such men, like Will Dudley, live to a ripe old age, unembittered by the troubles of the world. They seem to remain, all their lives, sweet-natured and kindly.

Time has a way of rendering accurate judgments on the value of the things men use and enjoy in the world. And Time . . . thousands of years of it . . . has handed down the verdict that beer is a pleasant and worthy companion for all men of good will.

CHRISTIAN SCIENCE SERVICES

"Truth" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, July 26.

The Golden Text is: "The work of God is quick, and powerful, and sharper than any two edged sword, piercing even to the dividing asunder of soul and spirit, and of the joints and marrow, and is a discerner of the thoughts and intents of the heart" (Hebrews 4:12.)

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Lead me in thy truth, and teach me: for thou art the God of my salvation; on thee do I wait all the day" (Psalms 25:5.)

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Spirit, Life, Truth, Love, combine as one,—and are the Scriptural names for God . . . No wisdom is wise but His wisdom; no truth is true, no love in lovely, no life is Life but the divine; no good is, but the good God bestows" (page 275.)

JOHN LEE SMITH

ANNOUNCES FOR LIEUTENANT GOVERNOR

Senator John Lee Smith of Throckmorton, has announced his candidacy for Lieutenant Governor.

The West Texan, serving his first term in the Senate, was reared in Throckmorton county, is a former county judge of that county, served in France in World War I with an artillery regiment as a private soldier, and has been active in American Legion affairs for many years.

He was permanent chairman of State Democratic Convention in 1940, and upon entering the Senate last January was made a member of the powerful state affair committee and a member of other major senate committees.

JOHN LEE SMITH

SPONSORED ANTI-STRIKE LEGISLATION

He took the lead in the nation in the advocacy of legislation to prevent strikes in war industries and to curb war profits. He was the author of the first resolution passed by a legislative body calling upon Congress to put an end to strikes and restrict enormous war profits. He had charge of the anti-strike bill in the Senate made law by the last legislature and which was recently upheld by the court of criminal appeals. Smith has a son serving with the 36th Division at the present time.

URGES LOYALTY ON THE HOME FRONT

In making his announcement he said: "We must back up those boys who are now fighting for our freedom. The best way we can do this is to practice economy in all branches of our state government. If these boys can give their lives for the state, then those on the state pay-roll, from the highest paid official down to the lowest, should not complain at some necessary reductions. We must support the nation's war effort. To win final victory the Federal Government will have to expend around 150 billion dollars. This being so, Texans must not jeopardize the nation's supreme effort to make the world again safe for free men by embarking upon a program requiring a huge tax increase."

A TAX DOLLAR SAVED ON THE HOME FRONT CAN BE USED TO AID THE BOYS ON THE BATTLE FRONT.

WE HAVE LOST 5000 planes by strikes and slow-downs. If Congress had passed an anti-strike law one year ago similar to the one we have in Texas, our nation would have 5000 planes and thousands of tanks and guns it does not now have.

WE MUST BE VIGILANT ON THE HOME FRONT IF WE EXPECT OUR BOYS TO WIN ON THE BATTLE FRONT.
